¹ Total return is calculated assuming a purchase of a Fund share at the beginning of the period and a sale on the last day of the period at reported net asset value per share, excluding any brokerage commissions. Distributions are assumed to be reinvested at the lower of the net asset value or the closing NYSE market price on the distribution's valuation date for those receiving shares for the distribution. For periods greater than one year, returns are presented on an annualized basis.

² The Annualized Current Distribution Rate is the current quarter's distribution rate per share annualized and expressed as a percentage of the Fund's NAV per share as of December 31, 2025.

³ The Cumulative Fiscal Year Distribution Rate is the distributions per share for the current fiscal year period, expressed as a percentage of the Fund's NAV per share as of December 31, 2025.

You should not draw any conclusions about the Fund's investment performance from the amount of the current distribution or from the terms of the Fund's Distribution Policy. The amounts and sources of distributions reported herein are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.
